Choose PSTD, Choose Success

Collaborative Expertise

Developed by the country's top practitioners

Rigorous Assessment

Reviewed to uphold the pinnacle of best practices in the training design field.

Practical Competence

Showcase your skills and excel as a Master Trainer.

Industry Approval

Gain recognition from industry leaders and respected practitioners.

Level 1 Certification: Marunong (Knowledgeable)

Chart Your Path to Mastery

We offer two options—each tailored to your experience and skills.

Option 1: Build Your Way

VS

Option 2: Fast-Track

For those new to the field, this approach provides a structured route to becoming a Master Trainer:

1. Evaluate your proficiency in the **four certification categories:** Analysis, Design, Facilitation, and Management.
2. Enhance skills through **targeted certification training** and apply for certification in your **strongest categories.**
3. Once **certified in all categories**, you'll automatically attain the coveted Master Trainer Certification.

Designed for seasoned training practitioners, this streamlined route recognizes your dedication and expertise:

1. Review the **Certification Application guide** to understand the **requirements** & prepare a **portfolio** aligning with the **criteria.**
2. Submit your **application** via **pstd.org/mtcapplication.**
3. Engage in the **certification process guided** by our professional staff, consisting of **three phases:** Application, Assessment, & Certification.

Level 2 Certification: Mahusay (Proficient)

Designed for professionals with at least one (1) year of training design experience, this level recognizes your high standard in designing and developing training programs.

Begin Your Journey

Visit the PSTD website and submit your application through this URL: pstd.org/mtcapplication/

Craft Your Application

Prepare your application, including a comprehensive CV (max 3 pages) and evidence of your credentials for the past 3 years.

Show Your Expertise

Ensure that your portfolio meets the following requirements:

- Research Plan with objectives, methods, and resource needs
- Data-gathering tools tailored to data sources and methods
- Collected, tabulated, and analyzed data
- Training needs with specific performance criteria and conditions
 - Strengths and areas for improvement based on evaluation outcomes
- TNA and Evaluation Reports

Meet the Criteria

Ensure your portfolio includes:

- **Strategic Intent:** Describe the organization's strategic direction, goals, and key performance indicators
- **Performance Measurement:** Describe and measure both individual and group performance (actual and desired)
- **Research:** Include the research conducted to determine training needs
